- 1.2. Each child enrolled at a Public preschool is supported to learn and develop in a secure and empowering environment.

2. Rationale

- 2.1 It is important that all educators are aware that responsive, warm, trusting and respectful relationships with children promote their wellbeing, self-esteem, sense of security and belonging.
- 2.2 The following procedures are in place to ensure that constructive interactions and shared learning opportunities form the basis of equitable, reciprocal relationships between educators and children and that these relationships are encouraged between children.
- 2.3 In developing this *Interactions with Children Guidelines*, it is assumed that Public preschools will have enacted the philosophy, beliefs and values of the learning environment, particularly with regard to relationships with children.

3. Values

- 3.1 In their interactions with children and their families all educators at Public preschools are committed to:
 - maintaining the dignity and rights of each child at the preschool;
 - encouraging children to express themselves and their opinions, and to undertake experiences that develop self-reliance and self-esteem considering the health, safety and wellbeing of each child, and providing a safe, secure and welcoming environment in which they can develop and learn;

 - considering the diversity of individual children at the service, including family and cultural values, age, and the physical and intellectual development and abilities of each child;
 - building collaborative relationships with families to improve learning and development outcomes for children;
 - encouraging positive, respectful and warm relationships between children and educators and staff at the preschool; and
 - developing consistency of high-quality practices amongst staff members.

- 5.5 *Having supportive relationships with the nominated supervisor, educators, co-ordinators and staff members enables children to develop confidence in their ability to express themselves, work through differences, learn new things and take calculated risks* (Guide to the National Quality Standard).
